

## SCOPE

Veritas Petroleum Services is a service provider to the maritime industry with four fully owned laboratories located in strategic locations. Head office is in Rotterdam, Netherlands. The four laboratories are located in Rotterdam, Singapore, Houston, and Fujairah.

VPS offers the following services:

- Fuel Quality Testing
- Bunker Quantity Surveys
- Fuel Advisory and Reporting
- Fuel System Checks
- Emergency Equipment Testing
- Chemical Contamination Services
- Troubleshooting
- Oil Condition Monitoring

VPS also provides a complete range of sampling equipment, ranging from:

- Line Samplers
- Cubitainers
- Sampling Kits

## QUALITY POLICY

As the leader in fuel testing and inspection, it is our vision that we will be the natural choice through valuing the stakeholders' needs and delivering world-class service. To achieve this, our objective will be the ongoing development of our management processes to continually improve our service and be a better company by:

- Developing and using key performance indicators.
- Continually developing the expertise and professionalism of our staff.
- Complying with applicable standards and regulations.
- Deliver to the highest technical standard.
- We will never compromise on quality or integrity.

## HSE POLICY

VPS is committed to managing and continually improving our health, safety, and environmental (HSE) performance with the overall goals of preventing injury or occupational illness and protecting the environment. Through the way we work and act, we show awareness of HSE risks and commitment to our goals:

- We understand that our work is never so urgent or important that we are unable to take the necessary time to do it safely. We feel confident and empowered to intervene where inappropriate behavior or unacceptable conditions are encountered.
- We identify and assess risks to the health and safety of people, property, and the environment in our work. We ensure they are effectively managed and that areas for improvement are identified and prioritized.
- We foster a culture where everyone is actively involved in setting a good example and pursuing, adopting, and sharing good HSE practice.
- We develop, resource, and implement HSE plans to deliver continual improvement in HSE performance. We openly report and appraise our HSE performance, measure our achievements against our plans and goals, and take action to address shortcomings.
- We treat incidents, including near misses, and feedback from employees and customers as important learning opportunities.
- We select sub-contractors and suppliers in certain criteria including their ability to provide services which meet our safety, health, and environmental requirements.
- Veritas Petroleum Services will comply with all relevant environmental, health, and safety legislation and will review compliance obligations annually, or earlier, if circumstances require.
